## EYES ON OREGON FIGHT BETWEEN SMITH AND REED

Much-Debated Issue Of Governor's Religion is Big Factor

## KLAN HELD STRONG IN PRIMARY TODAY

State Is Dry and That Is Expected to Have An Effect on Voting

Washington, May 18.—The rival presidential candidates of Gov. Al Smith and Senator James A. Reed are head-on in Oregon today, and leaders of both parties in Washington are watching the outcome with an intensity of interest wholly out of proportion to the small number of delegates involved.

Ten votes at the Houston convention won't make or break either Smith or Reed. What party leaders consider important about the Oregon primary today is that it is expected to throw some light on the much-debated question of Gov. Smith's religion as a political factor to be considered.

Oregon is a dry state. It is also one of those states wherein the klan rose to a position of powerful influence. And it was in Oregon that the legislature enacted the famous Parochial school law, which directed that all children be sent to public schools as distinguished from sectarian and religious schools.

Ten Per Cent Catholic  
Therefore, the party leaders here reason that if there is any state where Gov. Smith's being a Catholic might militate against him politically it will be in Oregon. Less than 10 per cent of the state is Catholic and that the religious issue has burned brightly in the state was exemplified by the rise of the klan and the enactment of the school law.

Gov. Smith has never been in the state. Senator Reed has campaigned in it and is said to have a considerable personal following there. Some of the Democratic leaders here anticipate a close battle.

Incidentally, the Oregon primary furnished the first clear-cut test of Smith against Reed. In California, there was a three-cornered fight between Smith, Reed and Senator Walsh of Montana. Smith polled more votes than Reed and Walsh combined in California, and Walsh was so decisively defeated that he subsequently withdrew from the race.

Hoover Wins Delegates  
Reed stated at the time that he wished the Montana senator had withdrawn earlier, "before he muddied the water" by injecting a third candidacy in the California battle. That statement indicated the Missouri's wish for a clear-cut test with the New York governor, and he gets it today.

Republican leaders are no less interested in the outcome than Democratic leaders. The Republican "best minds" already consider that Smith is their opponent in November, irrespective of whether Smith or Reed snags Oregon's ten delegates today. And they are anxious to have some weight thrown on the religious angle of the general situation. They figure Oregon is a good place to furnish it.

The 13 Republican delegates to be chosen will go to Hoover without exception for no other candidate and under the state law the election goes to Hoover automatically.

## THOUSANDS SEE NEW BUNN STORE

Between 4,000 and 5,000 people attended the grand formal opening of the new Bunn shoe store at 82 Main st., Thursday evening. By actual count kept for two hours, 25 persons entered the store each minute.

The store was decorated prettily with flowers, palms and ferns. Music was furnished by Finley's Melody band.

Miss Ruth Elwonger, with an unusually high average for her three years, is first honor student. Second honors go to Miss Clarissa Altomare, and third to Paul Conrad.

The class of 24 young men and women will graduate May 31. The three honor graduates will speak at commencement.

## TEMPLARS HEAR REV. MACAULEY ASCENSION DAY

Former Lisbon Pastor Is Speaker Here At Annual Service

Rev. P. E. Macauley, of Cleveland, formerly of Lisbon, a member of Salem commandery, preached the sermon at the annual Ascension day service of Salem commandery No. 42, Knights Templar, Thursday afternoon, at the Masonic temple.

This is always an outstanding event of the year for the commandery and the attendance of the members and their families at this service was the largest since the new temple was built.

Rev. Mr. Macauley preached a fine sermon relating to the ascension of Jesus Christ into Heaven and its meaning.

Numbers on the program were: Instrumental solo, Mrs. Harold Babb; scripture reading, Dr. T. T. Church; prelude; vocal selection, G. A. Hempstead, accompanied by Mrs. Harry E. Marsden; invocation, Rev. Mr. Macauley; vocal selection, double quartet, Mrs. Charles Blackburn, Mrs. Clyde Hadley, Mrs. Carl Bowman, Mrs. Herman Armstrong, Carl Bowman, Harry George, W. R. Simpson and G. A. Hempstead.

After the service a banquet was served by the Eastern Stars. The dining room was beautifully decorated with flowers for the occasion. For the first time the tables were set in the form of a "Salem Cross." Roses were used to decorate them.

George Harroff, eminent commander was toastmaster, and a program entertained after the meal. It was composed of these numbers: Instrumental trio, John Hundertmark, cello; Frederick R. Hundertmark, violin; Mrs. Harold Babb, piano; vocal solo, Mrs. Gerald Ellis, Lisbon, accompanied by Mrs. Harry E. Marsden; "The Salem Cross," G. M. Wilson, past eminent commander; vocal selection, Mrs. Esther Odorin, accompanied on the piano by Mrs. Babb; address, Rev. D. E. Scott, of Cleveland, formerly of Lisbon, and a member of Salem commandery; selection by double quartet, accompanied by Mrs. Marsden.

Mrs. Harroff was presented a bouquet of roses, with F. J. Eckstein making the presentation speech. Hundertmark's orchestra furnished music.

## COLUMBIANA MAN HELD AS SUSPECT

Youngstown Police Believe He May Know of Kidnaping of Beatrice Rosenbaum, 10

Youngstown, May 18.—Police today were apparently working on the theory that Beatrice Rosenbaum, aged 10, missing South Side girl, is alive.

Though arrests of suspects in the case continued last night with the apprehension of a Columbiana man, and the rearrest of a prisoner released earlier in the day after witnesses had failed to identify him, it was indicated that authorities have begun to put much stress on a search for a middle-aged man who was seen driving away from the Rosenbaum house early Monday with the girl and who is believed not to be a Youngstown man.

The search for this man, police intimated, was extended into three states—northeastern Ohio, western Pennsylvania and a portion of New York.

The hunt was extended beyond Mahoning county after a conference between Chief of Police J. J. McNicholas and M. B. Rosenbaum, father of the girl.

Following this conference Rosenbaum went with detectives to the homes of South Side residents who saw Beatrice driving away from the Rosenbaum home early Monday with the middle-aged man. What information Rosenbaum gave to Chief McNicholas was not revealed.

Police indicated that the search was being directed particularly into three large cities.

Meanwhile members of the detective department were not relaxing their vigil on local suspects and were momentarily expecting the apprehension of a suspect in Canfield.

One man released after a second questioning Thursday was rearrested last night on a minor charge.

The suspect taken at Columbiana Thursday, and the first suspect arrested in the abduction Wednesday, who as yet has not been released, will be questioned again today, the latter for his third time.

## Churches' Secretary Protests "Elmer"

Cleveland, May 18.—Safety Director Edwin D. Barry today was considering a protest handed him last yesterday by Rev. E. R. Wright, executive secretary of the Cleveland Federated churches against the dramatization of "Elmer Gantry." Sinclair Lewis' latest novel, scheduled to be staged here next week.

Rev. Wright declared his protest was personal but that he felt certain the federated churches would support him.

Hoover is contesting West Virginia delegates with Senator Guy D. Goff, favorite son candidate.

The state committee's expenditures have totaled \$7,589.24, of which the national organization advanced \$6,000.

Senator Watson's campaign in Indiana to defeat Hoover cost \$32,671.05, Bert M. Thurman, campaign manager, informed the committee.

Thurman in a detailed statement of Watson's expenditures, reported three \$5,000 gifts from A. L. Kitchman, C. M. Kitchman and E. J. Kitchman, all of Muncie, Ind. Judge Watson of Indianapolis contributed \$2,500, while the senator himself gave \$1,000.

The \$500 contributors were Lawrence K. Whiting of Chicago; Earl Castan, Arthur Butler and Frank M. Miliken, all of Indianapolis; and Richard W. Yerkes of Chicago.

## Youth Is Victim of Mine "Black Damp"

Bellaire, May 18.—Although efforts were made to rescue him by the use of mine rescue helmets, Lewis Butas, 18, was dead today, after being overcome by blackdamp when he attempted to climb down an abandoned air-shaft of a mine here last yesterday.

Danger of suffering a similar fate drove back rescuers who were powerless to enter the pit in time to save his life.

## AMERICANS GET DEATH WARNING FROM SANDINO

Manager Harry Amphlett Of La Luz Mine Tells Of Letter Received

## NICARAGUAN REBEL BLAMES PRESIDENT

Calls to Coolidge to Order Marines Recalled From Country

Puerto Cabezas, Nicaragua, May 18.—Following close upon a battle between United States Marines and guerrillas north of Matagalpa, in which one marine was killed, Harry Amphlett, manager of the American owned La Luz and Los Angeles mine, announced the receipt of a letter from the Rebels threatening death to all United States citizens residing in Nicaragua.

The letter was signed "Sandino," leader of the Revolutionary army. Amphlett, who is on his way to New York, made a trip to the Pis Pis river district where he found that the Rebels after their first raid, had returned to the mine colony and destroyed all the buildings except two.

Amphlett also found a letter from the outlaw chief which said, in part: "I have the honor to inform you that on this day your mining property was reduced to ashes. This is in accordance with my command and it represents a tangible protest against the warlike invasion your government has made in our territory without more right than that of brute force.

No Guarantees Given  
"In case the government of the United States does not order the withdrawal of the pirates from our territory there will be no guarantee in this country for the North Americans residing in Nicaragua. At the beginning I believed that the people of North America were not in agreement with the abuse committed against Nicaragua by the government of Calvin Coolidge but I am now convinced that the people of North America applaud the intervention of the Coolidge government in my country.

"It is for this reason that all North Americans who fall into our hands will have reached their end."

The losses you may have suffered from destruction of your mine you may collect from the United States government, and from Calvin Coolidge who is responsible for the horrible and disastrous situation that prevails in Nicaragua today.

"If you are an honorable man you will be able to understand that the above mentioned is an accomplished fact. The pretext that Coolidge (Continued on Page 4)

## DEPUTY'S SLAYER GETS LIFE TERM

Portsmouth Youth, 20, Is Found Guilty; Mercy Is Recommended

Portsmouth, May 18.—Edgar Burton, 20, was to begin serving a sentence of life imprisonment today following a verdict of guilty, with a recommendation for mercy, returned here yesterday by the jury before whom Burton had been on trial charged with murder, first degree in connection with the slaying of Deputy Sheriff Henry Bending 31, on Easter Sunday last.

Sentence was pronounced by Judge Kimble immediately after the jury had returned its finding.

Bending was shot through the head and instantly killed in the melee which ensued when Burton and Garner Vencil, 27, set upon Allen Higgins at a filling station near Slab Run after he had refused to procure whiskey for them. It was alleged, in attempting to escape, Higgins received serious knife wounds.

## MLLE. LE BLAN BRITISH CHAMP

Hunstanton, Eng., May 18.—England lost another national golf title today when Mlle. Manette Le Blan of France, became the women's open golf champion of Great Britain by defeating Miss Sylvia Marshall of England, three and two in a 36 hole match.

This is the second successive year that France has won the British women's championship. Mlle. Manette Thion De La Chaume of Paris having been the victor in 1927.

## OSBORN SAFE IN CHINA IS REPORT

## Blame Radicals As Two Bombs Wreck Executioner's Home

Elliott, Who Sent Sacco and Vanzetti To Their Deaths, And His Family Escape Unhurt In Double Blast Today

New York, May 18.—Two time bombs which exploded with terrific detonations within a few seconds of each other shortly before 2 a. m. today practically demolished the Richmond Hill home of Robert Elliott, the executioner who pulled the switch which sent Nicola Sacco and Bartolomeo Vanzetti to eternity.

Elliott, his wife and two children and a guest miraculously escaped injury.

Police had only one vague clue to aid their investigation of the bombing. A red automobile was seen speeding from the scene shortly after the explosion.

The force of the concussion was felt throughout the neighborhood of the Elliott home on Richmond Hill, Queens. Windows were broken.

Both On Porches  
One of the bombs was placed on the front porch of the two-story stucco residence. The second was placed on the rear porch. The bomb in front of the house exploded first.

Elliott, his wife, Belle, their daughter, Gertrude, 17, their son, Robert Jr., 27, and a cousin, Thomas Lane, 27, were in bed at the time. None was injured.

Elliott is the official executioner of New York state. He also officiates in that capacity in Massachusetts and Pennsylvania. When Sacco and Vanzetti were convicted to die in August 23, 1927, Elliott was selected as executioner.

Before and after the execution, Elliott received anonymous letters threatening him with dire punishment for officiating. For many months after the execution he and his family were closely guarded by the police.

Electrocuted Ruth Judd  
Elliott told the police after the bombing today that he was certain the bombs were placed in his home by fanatical sympathizers of the two Italian radicals, who are found guilty of murder after one of the longest and most widely discussed trials on record.

Although they have issued no official statement, it is believed the police are inclined to agree with Elliott that the bombing was planned as a reprisal.

The authorities are certain that the internal machines were time bombs. All radicals known to have violent tendencies are being watched closely by the police. Numerous detectives, members of the bomb squad and a company of fire-fighters arrived at the scene shortly after the bombing.

Elliott was the executioner at the electrocution in Sing Sing prison of Henry Judd Gray and Ruth Snyder, convicted of the murder of the woman's husband, Albert Snyder.

## ANNUAL PLAY IS GIVEN BY PUPILS OF JUNIOR HIGH

"Peddler of Hearts" Hit Last Night; Acting Is Excellent

Pupils of the Junior High school, under the direction of their teachers, presented the annual play Thursday evening at the Salem High school.

This year, "The Peddler of Hearts," a novel presentation written especially for children of Junior High age, was chosen.

Fifty-three pupils take part in this play which renews the stories of elves and fairyland. The settings are a garden in the village of Herzmwald and a glade in the El King's wood and both are very well carried out on the stage. The elaborate costumes of the prince, the burgomaster, Belrose and in fact all of the cast, added much to the play.

All of the characters in the play give a good presentation of their parts. Jack Ballantine as the El King and "Peddler of Hearts" proves to be a very good salesman and induced all the people of Herzmwald to trade their good "fresh and blood" hearts for the ones he offered for sale.

Helen Esther Palmer as Gretel, the "Gnome-girl" is the heroine and saves Herzmwald by her courage and the love for her people. Ralph Everette plays the part of Rudolph, her lover.

Some of the other members of the cast are: The Prince of Herzmwald, Billy Gibson; Burgomaster of Herzmwald, Dan Holloway; Belrose, the burgomaster's daughter, Sara Spiker; Karl, Richard Keller; Elda, Constance Tice.

Doris King, Alleen Umstead and Louis Quinn entertained with solo dances. Between acts and scenes the Junior High orchestra furnished music.

The play will be repeated tonight at 8:15.

## Report Haywood Is Dead; Was Noted Red

London, May 18.—William D. ("Big Bill") Haywood, former Chicago leader of the Industrial Workers of the world, is dead at Moscow, according to word received here this afternoon. A Moscow dispatch to International News Service a fortnight ago said that Haywood was in the Kremlin hospital in a critical condition from diabetes and heart weakness. The dispatch added that the former American Communist was believed to be dying. Haywood was 59 years old.

## SCHOOL HEAD OUT

St. Clairsville, May 18.—W. E. Arter today had resigned as superintendent of schools here after he said at commencement exercises last night that expressions of dissatisfaction had convinced him his withdrawal would be to the best interests of all, according to the board of education here today.

Stockholders of the Union of Rumanian Society Publishing company were holding a meeting today. The convention comes to a close tomorrow.

## DRIVE WORKERS SURE OF RAISING FUND BY TONIGHT

Total of \$11,424.50 Is Reported At Dinner Thursday Night

## PUBLIC RESPONSE CALLED EXCELLENT

Final Dinner Meeting To Be At 6:30 Tonight At Memorial Building

Less than half of the amount sought in the Community Chest drive was subscribed Thursday, the first day of the campaign, it was shown by reports of teams and the executive committee at the dinner meeting at the Memorial building last night, but the committee is confident that with liberal support in the closing hours today the goal of \$24,200 will be attained.

A total of \$11,424.50 was reported for Thursday. To each team report the captains were instructed to add \$300 from the shop team and \$600 from the executive committee, and the totals were then given as follows:

Team No. 1, C. S. Carr, captain, \$1,678.25; No. 2, Judge J. C. Boone, captain, \$2,006; No. 3, R. M. Atchison, captain, \$1,159; No. 4, E. F. Hauser, captain, \$1,233.50; No. 5, R. S. McCulloch, captain, \$1,301.50; No. 6, Miss Martha Wire, captain, \$1,575.30; No. 7, Mrs. Joe M. Kelley, captain, \$1,336.50; No. 8, Mrs. J. E. Maley, captain, \$1,144.50.

Two of the team captains, Mr. Atchison and Mrs. Kelley, explained that they had but partial reports, all of the subscriptions for the day not being in. The extra amounts will be included in tonight's reports.

Workers were urged, by three speakers last night, to put forth their hardest efforts today, admittedly the most difficult day of the two for the securing of subscriptions. Territory not covered, or only partially covered yesterday, was apportioned out by lot to the teams for canvass today.

Rev. A. M. Clarke, pastor of the First Baptist church, the first speaker introduced by Chairman John S. Alan, urged more efficiency, pluck, and hard work to put the campaign over, and go over the top by tonight.

C. T. Brooks, of Salem and Cleveland, a member of the executive committee, complimented the organization for its work the first day, and by pointing to Cleveland's chest program as an example, said that children should be made conscious of the value of the chest so that they will grow up interested in it.

Response Is Excellent  
C. C. Gibson, last year's chairman, brought the workers to the realization that the hardest efforts were necessary today, and many responded to his plea that team members give all of their time today to obtaining subscriptions.

The response from the public has been excellent. It was pointed out during the dinner session, and team members, and their leaders also were commended for their service.

Chairman Alan said today that he is certain the goal will be attained by 8 p. m., when reports are scheduled to be given. The dinner will be at 6:30 and the reports will be given during the customary short program.

"Over the top by tonight" has been the slogan of the day.

## RUMANIANS TO MEET IN SALEM

Campbell Man Is Elected Grand President At Canton Session

John Cosma, George Bodinea and Leo Copacia, this city, represented the Salem Luel society at the Rumanian convention held at Canton, which closed Friday morning.

These delegates were successful in securing the convention for Salem next year and it will be held on Labor day. Delegations from 200 societies will attend.

Canton, May 18.—The Union and League of Rumanian Societies of America, in convention here, today elected the following officers, following an all-night session:

Grand president, Adam A. Prie, Campbell, O.; vice president, M. P. Roman, Youngstown; secretary, John Muresan, Cleveland; assistant secretary, L. S. Hampe, Alliance; treasurer, John Borza, Massillon; auditor, John Borza, Massillon; and N. Baniadu, Warren; financial committee, John Manpa, Indiana Harbor, Ind., M. Bincha, Wheeling, W. Va., John Gracium, Cleveland and Peter Pacurar, New Castle, Pa.

Salem was chosen as the next convention city beginning Labor day 1929.

Stockholders of the Union of Rumanian Society Publishing company were holding a meeting today. The convention comes to a close tomorrow.

## GERMANY IN NEW ROLE

Germany has accepted Secretary Kellogg's proposal of an anti-war treaty among the world's principal powers. By so doing, Berlin has impressively directed attention of the world to that nation's new position as one of the foremost champions of peace and disarmament. Germany accepted the Kellogg proposal without reservation, modification or qualification.

It is recalled that Germany took the initiative for the Locarno pact, which furnished the first post-war guaranty, in practical form, among the great powers of Europe. Indeed, ever since the war Germany has been among those who have given strongest impetus to the cause of banishing the institution of war.

In the treaty of Versailles the Allies bound Germany to disarm in order to render possible the initiation of a general limitation of the armaments of all nations. Germany already had taken steps in that general direction by inaugurating a new national government beyond the Rhine, and since then has not only disarmed to the extent demanded by the Allies, but, by the policy displayed at Locarno and Geneva, has proved a willingness to entrust its national security to the instruments of peace.

In accepting the Kellogg proposal the German people have continued to follow this policy.

## VERNAL EPIDEMIC

The vernal season is responsible for an epidemic which assumes nationwide proportions, which is no respecter of persons and which produces that feeling of lassitude for which there apparently is no cure, albeit the casualties are inconsequential.

Spring fever lays hold with the first outcroppings of nature. It is apparent on every hand. Folks have a far-away look in their eyes. They went to sit and ponder—or stand on the sunny side of a building and meditate. There is no set formula to be followed by a man or a woman stricken with spring fever. Nor is there any cure for the ailment.

But it will wear off. And folks will feel better when the ailment is gone. It's natural ailment, this lassitude. Some people call it laziness. Others call it by a more highfalutin' name. But in the final it is one and the same.

It is natural rebellion against being shut indoors when nature calls. But someone must work. So we folk who labor yearn for a day in the open—and proceed with weighted feet to our tasks.

But the other side of the picture is interesting, too. How many of us would actually be happy if we had nothing at all to do except loaf? Very few. Man is not naturally a vagabond. He has the inclinations or inhibitions which would make a good nomad, but his self-respect prevents him chucking everything and taking to the open road.

Hence we may all wish we were not tied down to daily tasks which irk us in the vernal season, but we wouldn't be happy for more than a single day if we were foot-loose and fancy-free, and didn't have to get down to the job at a disagreeable hour, when there are so many things out-of-doors which need investigation at this time of the year.

## What Others Say

### TO SAVE A QUARTER

Did anybody seriously propose that the gasoline tax be raised to ten cents a gallon in all the states to hasten the improvement of every road which carries any considerable traffic, that person would probably be hooted out of court, either as a wild visionary, or else as a venal hireling of the "cement trust."

And yet some calculations based on recent driving cost studies made at Iowa State college, Washington State college and North Carolina State college, indicate that a ten cent tax, wisely spent, would save itself three times over in reduced automobile operating expenses, once the highways were all made

adequate to carry the loads they are called upon to carry.  
These driving cost studies show that in fuel, oil and tires, it costs \$35.10 to drive a given car 1,000 miles over rough roads, and only \$12.80 to drive the same car the same distance over smooth improved roads.

The extra cost exacted by the rough road runs to more than two cents a mile. If we take this car as the average and assume that it will deliver 15 miles to the gallon of gas on a smooth road, then the saving of two cents a mile becomes 30 cents for each gallon of gas burned.

About one-fifth of the highways of America have been improved to some extent in recent years, but there are still 2,000,000 miles of roads that are inadequate for the economical handling of their traffic. Their immediate improvement would necessitate something like a five-fold increase in highway outlay over the next few years.

That the driving public will soon authorize anything like a five-fold increase in highway outlay is highly improbable. But there will come a time, perhaps a decade hence, when the driving public, whenever it finds highway conditions require a multiplication of expenditure, will even demand that its gasoline tax rate be hoisted.

In Florida, Kentucky, South Carolina and New Mexico, where roads are wisely concentrating on road improvement instead of stringing the job over a long period, there is no important protest on the part of drivers against the five-cent gasoline tax required to finance the work. Spending a nickel to save a quarter is good economy there. Hastening completion of Minnesota's needed paving with heavy bond issues funded through a doubling of the present gasoline tax, would be good economy here—Minneapolis Journal.

## SHAKESPEARE AND LINCOLN

The Lincoln memorial building is apparently having the same difficulty that is experienced by the English people who are seeking funds to build a memorial to Shakespeare. Each group is ready proudly to say that the more famous the person and the more worthy the project the more difficult it seems to collect the funds required. Everybody in the literary world reveres the memory of Shakespeare. Everybody in the United States holds Lincoln in his heart of hearts. But England is having trouble raising funds to rebuild a destroyed memorial, and the Lincoln association seems to be unable to arouse the degree of interest that ought to support the project to commemorate Lincoln's 14 years of life in Indiana. Of course, the projects will be successful, but "why not now?" England admits that the most of her Shakespeare funds have been coming from the United States. Perhaps if the central Indiana district does not receive sufficient responses to take care of its quota for the Lincoln memorial an appeal should be made to Great Britain, where Lincoln is appreciated with the other immortals—Indianapolis News.

## BRANDING BUSINESS PIRATES

American business must drive from its ranks those pirates who disregard the law, abuse their power, take unfair advantage of opportunities, debauch public servants and impose on the public, or there will be thunderbolts of restrictive legislation that will amount to governmental supervision of business and individual and corporate initiative will be curbed and harmed. That was the keynote of the address by Judge Edwin B. Parker, chairman of the board of trustees of the Chamber of Commerce of the United States, at the recent annual gathering in Washington. Speaking for the largest group of business organizations in the nation, the spokesman stated his facts bluntly, that no one might fail to interpret the meaning of the organization taken. He would have business organization throw out of membership and association men who so offend. No one can misunderstand that statement—Ohio State Journal.

# PATCHES ON THROAT SHOULD BE WATCHED

Dr. Royal S. Copeland, M. D., United States Senator from New York. Former Commissioner of Health, New York City.

There is a special form of sore throat, accompanied by great pain known as "angina." It is due to a special and peculiar germ and is called Vincent's Angina.

Ulcers and patches of membrane appear in the mouth and throat. The patches look a good deal like the membrane of diphtheria. On this account it is not always recognized and sometimes is confused with diphtheria. It may be associated with abscessed teeth. I wish every body would come to realize what a menace to health a diseased mouth really is. The broken and ulcerated tissues are swimming in pus germs. Such surfaces are ready to become infected with some more dangerous germ than the ever-present one. Debilitated persons and those who neglect cleanliness are particularly liable to attack by the germs of Vincent's Angina.

There is such close relationship existing between tonsillitis, diphtheria and Vincent's Angina that certainty as to the true nature of the trouble is determined only in the laboratory. As a matter of safety, all throat membranes and unusual discharges should be submitted to the microscope.

Many persons who have real diphtheria lack positive and painful symptoms. They hardly feel ill and may proceed with their regular duties. They know there are patches in the throat but they disregard them.

This should never happen. Every time a membrane forms whether the throat is extremely painful or just a little, there should be a laboratory examination.

There are really two forms of Vincent's Angina. One is a superficial type, in which there is simply ulceration. In the other the deeper tissues are involved.

To overcome Vincent's Angina immediate attention must be given the general condition. The teeth and gums should be attended to by the dentist.

As in other forms of sore throat, cleanliness is of vital importance. The mouth, tonsils, and throat must be kept clear of the membrane.

Some cleansing spray, wash or gargle may be used. Alcohol and tobacco should be avoided during the progress of the disease.

The family physician will prescribe the remedies and take charge of the case. It is important to call the doctor in any case of throat trouble when there are patches, because, as I have said, there is always the danger of diphtheria. It does not pay to take chances.

Answers to Health Queries  
A. J. Q.—What will help to reduce? I have been trying to reduce for three weeks and seem to be very flabby. Does that show results in any way? Are oranges reducing? I am 30 years of age, 5 ft. 4 in. tall. What should I weigh?

A.—A restricted diet and regular, systematic exercise should bring about results. After the flesh has become flabby exercise will be helpful in taking off the surplus weight and toning up the muscles and tissues. Yes, if not taken in excess. You should weigh about 132 pounds. For further particulars regarding weight reduction send a self-addressed, stamped envelope and repeat your question.

## Home Needs Filled By Farm Production

Of 10 important items of food and other commodities consumed in the Ohio farm home, by far the greater portion is produced on the farm where it is consumed. This is indicated in farm home accounts which were kept for an entire year on 48 Ohio farms, under the supervision of the home demonstration agents of the extension service of the Ohio State university. The accounts have been analyzed by C. E. Lively of the Rural Economics department of the Ohio State university.

Of the meat consumed in the 48 homes, 72.5 per cent, by weight, was produced on the farms themselves. Each family produced at least a part of the meat which it used. Each family also bought some of the meat which it consumed. All of the poultry used in these homes was produced on the farms where it was used. But there were three homes in which there were no chicken dinners during the year only 45 reporting that they raised and used poultry.

However, all 48 farms produced eggs and used them. Of the eggs used, 98.8 per cent were produced on the farms where they were used. This meant a consumption of 5,956.7 dozen eggs produced on the farms and 63.3 dozen purchased. Only seven of the families bought eggs during the year to supplement the supply produced on the farms where they were consumed.

## Chicago Club To Have Art Gallery

Chicago, May 18.—A Chicago hotel has undertaken the task of bringing art to its guests.  
The Alerton club has just opened a gallery of its own where it expects to display the paintings of prominent American artists.

"We intend maintaining a permanent museum here," explains W. W. Dwyer, manager of the hotel. "Business people, as a rule, are too busy to take time off to visit art galleries. So we have decided to bring art right to them."

The list of patrons and patronesses of the exhibits includes names of a number of the socially prominent.

Wife Given Divorce

On the grounds of gross neglect of duty, a decree of divorce has been granted Charlotte Bryan against her husband Harry Bryan, and upon the payment of costs. The petition of the plaintiff was filed March 15 last.

Motion Is Sustained

A motion to amend the petition has been sustained in the case of Louis Andrie against the Industrial Commission of Ohio. This is an appeal from the decision of the commission, pending on the records since Oct. 22 last. Exceptions of the plaintiff have been entered on the record.

Sale Is Confirmed

In the partition case filed April 1, 1927 by Robert A. Hamilton against Daniel McBane, the court has confirmed a sale, ordered a deed and has entered a decree of distribution.

Damages Sought

In a petition filed in common pleas court by the Deacal Products Co., of East Liverpool against Walter Deville, \$1,000 damage is sought and also a restraining order against the defendant from copying, imitating, producing or using any designs or decorations for dinnerware now in use by the plaintiff.

The plaintiff relates that the defendant was engaged under contract at a salary of \$100 per week for a period of one year effective as of Jan. 18, 1926, as a special designer, and that Sept. 5, 1927 the contract was renewed for a term of two years. In addition the defendant was given 10 shares of stock in the plaintiff company as a bonus, and of the par value of \$100 per share. It is further related in the petition that last March the defendant sought to cancel his contract, inti-

imating that he proposed a trip to England, and asked for the cash value of the stock. The money was given the defendant in lieu of the stock. Then, it is said, the defendant engaged with a competitive concern, and the plaintiff bases its suit on a breach of contract.

The condition of J. A. Schwartz, who has been ill at a hospital in Cleveland, is improved and he has returned to his home, Lincoln ave.

## High School Notes

"Education of the Child" was Vivian Dilworth's subject for her senior speech in High school assembly this morning. "The first seven years are the most critical in the life of the child. The forming of good habits in early life is very essential. We can overcome obstinacy by suggestion. The different types of children require special treatment. And we must not neglect the religious side."

Cecelia Williams gave a review of "Immigration Yesterday and Today." In 1854 there were 400,000 immigrants in the United States. The Irish came in greater numbers first, then the Germans and then the other northern countries. In 1898 the southern part of Europe began to send immigrants. The northern immigrants were 27 per cent ignorant; the southern, 35.6 per cent. At present immigration presents a big problem.

"Fraternalism" was William Wright's subject. A fraternity is a group of men associated for their own betterment. In 1776 the first frat was organized. Now every college has up to 50 different orders and there are about 6,000 frat houses in the United States. The nominees are judged on personality, character and initiative.

Bertha Zellers reviewed the life of "Gene Stratton Porter." The author hated school, she loved the great outdoors. Soon she began to write short magazine stories at first. In 1925 the "Keeper of the Bees," one of her most popular books, was published. I came on the market a year after her death which was caused by an automobile accident in 1924.

## Loses Her Smile

## FILIBUSTER MAY KILL NAVY BILL

Legislative Jam Holds Up Vote On Building Measure In Senate

Washington, May 18.—The \$274,000,000 naval ship building bill, designed to put the American navy into first-class fighting condition, is threatened with defeat through a senate filibuster.

Despite the big majority given the bill in the house and a unanimous report of the senate naval affairs committee, the bill was securely "land-locked" on the calendar today.

Backers of the measure, who declare that its failure will result in the United States dropping still further behind Great Britain and Japan in the naval standings, were bending every effort to bring it to a vote. Objections by Senator Borah (R) of Idaho and La Follette (R) of Wisconsin have twice prevented consideration.

"The bill is caught in a legislative jam, but I have hopes that we will be able to pass it this session," said Senator Hale (R) of Maine, chairman of the senate naval affairs committee. "Its enactment is highly necessary for the efficiency of the navy."

A plea for the measure also was issued by Rep. French (R) of Idaho, chairman of the sub-committee handling naval appropriations and who has frequently been classed as a "little navy" man.

Delay in passage of the bill for 15 cruisers and one aircraft carrier, has already precluded making of appropriations this session to begin work, he indicated.

Failure of congress to provide for an orderly upbuilding of the navy will result in a reaction for huge appropriations later on, and will in the end cost the government heavily, French said.

## AMERICANS

(Continued from Page 1) brings forward for his intervention in Nicaragua is that of protecting lives and interests of the North Americans and other foreigners residing in this country, which is a tremendous hypocrisy.

Are "Respectable Men?" "We Nicaraguans are respectable men and never in our history have occurred such happenings as are taking place at this time. They are the fruit of the politics of your countrymen in our own country."

"The most honorable resolution that your country could adopt in this conflict with Nicaragua is to retire your armed forces from our territory thus permitting us Nicaraguans to elect our national government. This will be the only method of pacification in our country. It depends upon your government to conserve the good or bad friendship between our own government and you."

The letter was signed "Sandino" and bore the Sandinista stamp and seal at the top of which is the picture of a marine with a drawn sword.

## THREE GRANGES ARE GUESTS OF SALEM GRANGE

Salem grange was host on Thursday evening at their hall on the Depot rd. to three other granges, Perry, Guilford, and Willow Grove, it being visitors' night. Each grange furnished a part of the program for the lecture hour.

The hall was filled to capacity, each grange being well represented, and it was thought by the members that this will be an excellent way to keep interest in grange work.

The lecture hour was opened by a welcome address by Mrs. Price Cope of Salem grange.

Other numbers were: piano solo by Mrs. William Rogers of Willow Grove; recitation by L. H. Fawcett of Perry grange; piano duet by Mary and Sylvia Burson of Guilford, which was followed by an encore; recitation by Mrs. Emerson Conrad of Willow Grove; vocal solo by Wanda Cope of Salem grange which was followed by a reading as an encore.

Playlet entitled "Thirty Thousand Dollars" by Mr. and Mrs. Ralph Huston, Earl Windle, and Mary Bates all of Perry grange; vocal duet by Harold McCrea and Mary Burson of Guilford; reading by Mrs. Ray Beck of Willow Grove; playlet, "Jemima's Peddlers" by Stella Vincent, Charles Vincent, George Phillips and Virginia Glass all of Salem grange. The social committee took charge for a short time and provided home made candy. A number of other members responded to the request of the master and gave a few remarks.

QUESTION — "How often do you have to oil an Allison?"

ANSWER — "Never! The electric motor is sealed up inside the Allison unit and as there is no belt, there is nothing to oil except the motor bearings and these are automatically oiled from a supply of oil sealed up inside the machine that never needs to be renewed."

## PRICES IRREGULAR

New York, May 18.—Stock prices were irregular, with the specialties down 1 to 2 points at the opening of the market today. Radio Corporation declined 1 1/2 to 189; Wright Aero lifted 1 to 220; U. S. Steel 14 1/2, down 1 1/2; General Motors (ex-div 3 1/4) 197, down 1 1/2; Chrysler Motor lost 1 1/2 at 76 1/2; Mack Trucks advanced 1 1/2 to 91 1/2; Packard dropped 1/2 to 70 1/2; and Nash rose 1/2 to 93 1/2. The oil and rail were lower. American Lined declined 3/4 to 100 1/2; and Sears, Roebuck fell off 1/2 to 103 1/2.

Neither the advance in the New York bank rate to 4 1/2 per cent, nor the \$140,000,000 increase in broker's loans produced sufficient selling in the market in the first hour today to precipitate the "crash" in prices that had been so widely predicted after the close of Thursday's session. On the contrary, the forward movement was resumed in a number of the motor and industrial shares, which sold up a point or two above the previous close.

Thus in the stock market looked on the bright side of the reserve bank's action; first because it was a piece of "bad news" and second because the higher rate here would tend to halt the movement of funds away from New York to the interior monetary centers where the rate was reported to 4 1/2 per cent about four weeks ago. It was well-known in Wall Street that the advance to 4 1/2 per cent was simply a matter of time and the sooner the better.

Professionals took their favorite stocks in hand early in the day, boosting Studebaker, Chrysler, Wright Aero and other market leaders a point or two. Encountering very little support from outside sources, however, they abandoned their efforts, and the market lapsed into dullness, with the range of prices slightly lower. Proximity of the Saturday closing of the stock exchange and the curb had the effect of slowing up speculative buying of the industrials and specialties.

Cash money was unchanged at 6 per cent and time money firm at 5 1/2-5 3/4 for all dates. Cotton prices were practically unchanged and grain prices were strong with wheat up 3 cents a bushel and corn up 1 1/2 cents. Copper held firmly at 14 1/2 cents a pound for domestic delivery.

# Odd Glimpse of Hoover

TAKING a peep into the old family album of the Hoover family, there would be found many cozy family groups, the customary old-fashioned "tintypes," and live, interesting pictures of family members and friends at work and at play.

The most that the old ones would bring forth would perhaps be the silly giggle of a very modern flapper and great astonishment at the tremendous amount of clothing worn by the women.

Here is shown one picked at random. After a casual glance and perhaps a tolerant smile at the "old fashioned" group, let's find who they are.

At the left is Theodore J. (Tad) Hoover at the age of 20; Herbert C. Hoover at the age of 16, and, seated, Mary Hoover at the age of 14 when the family lived at Salem, Oregon.

Theodore is now head of the Engineering Department of Stanford University, California, and Herbert, present Secretary of Commerce, is candidate for President.

## MRS. MINERVA BELLS

Mrs. Minerva J. Bells, 84, widow of Leonard H. Bells, died at the home of her daughter Mrs. William M. Wright, Salem township, at 7 p. m. Thursday. Death was due to infirmities of age.

The body was taken to the Bells funeral home, Lisbon, where it will be until Sunday morning, after which it will be removed to the home of Gerald Bells, a grandson, adjoining the funeral home.

The funeral will be held at 2:30 p. m. Sunday in charge of the Rev. J. M. Cameron, of the Lisbon U. P. church. Interment in the Lisbon cemetery.

Mrs. Bells is survived by three daughters, Mrs. Wright, Mrs. Annie Farmer of near Elkton, and Mrs. Warren Wolfgram, Columbiana, and one son, Henry Bells, Youngstown.

She was born in Elkton township.

## HOMEWORTH

Guy Thomas of Alliance, is in a dangerous condition in the Alliance City hospital, where he underwent an operation Monday afternoon. He is a son of H. H. Thomas of Homeworth.

Homeworth relatives attended the funeral of Mrs. Nettie Klopffenstein Fauble, wife of Harry Fauble of Alliance, Tuesday afternoon.

Mrs. Zillah Neiberhiser of Alliance, who underwent an operation in Dr. Wild's private hospital, is improving. She is a sister of Albert Summers of Homeworth.

A number of friends from this vicinity attended the funeral of Mrs. Elma Gyger, 83, who passed away at her home in Alliance, Sunday, after a brief illness. Mrs. Gyger was born Aug. 3, 1847, a daughter of Moravia and Amanda R. Lee of Leipsic, Pa.

In 1868 she was united in marriage with the late George R. Gyger, at Rochester, Pa., where death occurred in 1919. The family resided at Homeworth until 1887, when his home was established in Alliance. Mrs. Gyger is survived by one son, Elliott Lee Gyger who with his wife, Laura Stewart Gyger, arrived in Alliance Saturday from California. Funeral service was held at the home Tuesday morning with Dr. W. W. Dettler in charge. Interment was in the Alliance city cemetery.

Mark Censer of Cleveland, is spending his vacation in this vicinity.

A number of Homeworth relatives attended the funeral of James E. McNeel of Salem, Monday. Mr. McNeel was a former Homeworth resident.

Mr. and Mrs. C. E. Essick of Alliance were guests of Mr. and Mrs. F. S. Pieren, Sunday.

Mr. and Mrs. V. L. Thomas and daughter Kathleen and Helen Thomas were guests of Mr. and Mrs. Wm. Mangus of East Rochester, Sunday evening.

Tracy V. Slough of Berlin Center was in Homeworth, Monday.

## Makes Rapid Climb

Starting with the pushing of a truck on the platform of his home town railroad station, F. W. Leamy, of Burlington, Vt., in twenty-five years has kept right on pushing his way up, until he is now executive vice-president of the Delaware & Hudson Railroad.

(International Newsreel)

## RAIL SITUATION STILL BECLOUDED BY BOARD MOVE

Commission Refuses To Permit Officials To Direct Wheeling

Washington, May 18.—The action of the Interstate Commerce Commission in refusing to permit certain officials of the New York Central, Baltimore & Ohio and Nickel Plate systems to hold interlocking directorships on the Wheeling & Lake Erie board, has further beclouded the railroad situation, in the opinion of a number of railroad executives.

These three roads each acquired 38,398 shares of prior lien, 4,934 shares of preferred and 56,000 shares of common stock of the Wheeling & Lake Erie last year, the prior lien stock being purchased from John D. Rockefeller, Jr. They promptly applied for permission to have representation on the Wheeling board. Objection was raised by the Pittsburgh & West Virginia and Wabash roads on the ground that the purchase of the Wheeling stock by the three roads would give them jointly the control of the Wheeling and result in a discontinuance of the co-operation of the Wheeling as part of the through route with the Pittsburgh & West Virginia and Wabash.

In denying the application the commission pointed out that the acquisition of Wheeling stock by the three trunk lines was an important step in carrying out a plan for the consolidation of all the roads in eastern trunk lines into four great systems.

The four-system plan provided for the division of control of the Wheeling and several other small roads among two or more of the four systems, the understanding being that, although under joint control they would continue to be operated separately.

"The wisdom of providing joint control instead of single control of important lines, with the possible exception of terminal lines, seems to be questionable," the commission said. "The four-system plan has never been formally presented and is considered by us. Obviously, we are not in a position upon the record to render a decision upon the important questions involved, or to take any unnecessary step which might be construed as an approval of this plan or any other."

The commission was divided on the question of the interlocking directorships. Commissioners Meyer, Michelson, Brainard, Porter and Woodlock dissenting.

Meyer said that in view of the uncertainty of the plan, he was of the opinion that the public interest would be better served by permitting the representation of the stock on the Wheeling board, pending the presentation and action upon such a plan.

# JAZZ IS FRENCH BUT ORIGINATED ON MISSISSIPPI

Slaves of French People From Normandy Are Given Credit

Paris, May 18.—Jazz is of French origin. It never saw Africa, but was born on the banks of the Mississippi river, the child of slaves belonging to old French families who had come there from Poitou, Saintonge, Picardie and Normandy.

This is the theory of Fortunat Strowski, member of the French Academy, recently returned from the United States, who finds that the negro is a great amateur of rhythms, but not an inventor of melodies. The nights of Africa are filled with the sound of the tom-tom, which is not rhythm.

Jazz, says Monsieur Strowski, consists of rhythm (or rhythms) together with melodies. The two are bound together in a curious manner, and the melody is so intimately associated with the rhythm that it is impossible to separate the two. "I am incapable of doing it, unfortunately, but I am sure that if I could separate the pure melody from the rhythm which repeats it in the way of the modern jazz tunes, I would find an old, old French chanson or one of the gallant old airs of the 17th or 18th centuries which was sung through the period of Romanticism to the days of our grandmothers."

"Often, when listening to the epileptic orchestras of Broadway and Coney Island, I could distinguish the old French melody formerly accompanied by the little calcein."

Just when jazz was born, the Frenchman cannot say, but he is certain of how and where. The young French Creole, settled on the banks of the great American river, brought with her or had sent to her from her native land, the French songs in vogue and the latest hits.

Her slaves, while listening to her, instinctively imposed the rhythms on their tom-toms. And voila—jazz.

"Which only goes to prove, once more," adds Monsieur Strowski, that French genius and wit had as much to do as the old Puritan spirit in the creation of the young American nation. And when a Frenchman makes fun of everything American—customs, tastes and habits, he is making fun of his first cousins, without knowing it."

The death knell of Romeos has been sounded in Paris. No longer will romantic swains climb the balconies of their lady-lovers. The reason is simple. There will be no more balconies.

The Ministry of Finance, devising new means of bolstering the franc, has decided to impose a tax on balconies, the amount of impose varying according to the length and width of balconies.

Builders, however, are prepared to evade the additional levy. Some years ago when window space was taxed they just made the windows smaller. The latest model apartment blocks boast none of these vast French windows depicted by novelists and painters and they are without balconies. Romeo would

have to be a human spider to enter one of them.

Alphonse Clon, able-bodied carpenter, age 30, was sentenced to five years in prison for "a regrettable error." Revolver in hand, Clon rushed out of a cafe at the Porte de Versailles and shot a man whom he thought was Marcel Chauvet, "thief of my wife's love."

When the victim died Clon discovered his mistake. He had killed Albert Largeteau, a stranger.

Clon told the court he never intended to kill Chauvet. "I bought the revolver to commit suicide," he said.

"But you wrote a letter saying 'Death to the beast, death to the venom, whom did you mean?' asked the judge. "I meant myself," replied Clon.

The judge turned to Chauvet, who had been subpoenaed, and remarked, "Young man, you had a lucky escape."

## Save With Ice Announcing A Refrigerator "Check-Up" Service

We are pleased to announce that we can give the people of this city the Refrigerator Advisory Service offered in the double page advertisement of the National Association of Ice Industries in the May 19th issue of The Saturday Evening Post. Housewives who are interested in getting better results from their present refrigerators or in buying new ones, should consult us at once.

## Big Advantages of ICE

When ice is properly used in a good refrigerator, there is nothing cheaper nor better. Ice both cools the food and purifies the air in a refrigerator. When food is kept too cold, it dries out and becomes tasteless. If it freezes, flavor is lost. Ice keeps the air cold enough, without being too cold—dry enough, without being too dry. The food retains its savory juices.

The constant circulation of air over ice purifies air automatically. Impurities and odors are deposited on and absorbed by the film of moisture on the ice cake and carried off in meltage through the outlet. No other method of refrigeration provides this continuous purifying process. It takes melting ice in a correctly designed refrigerator to do this.

Be sure that you have a refrigerator that is in good working order—one that is well insulated, soundly constructed, scientifically designed for proper air circulation, with ample food chamber and ice chamber capacity for the size of your family.

**Act Now** To be sure that you will get from now on the most effective results which properly used ice can give you, write us at once. Kindly state whether you want our help in selecting a new refrigerator that will give you best results, or whether you want to know how to get best satisfaction from a refrigerator that you already have.

## DELAY VOTE ON TAX REDUCTION

Rush Toward final Action Slowed Down to Walk in the Senate

Washington, May 18.—The administration's efforts to rush a final vote on the new \$228,000,000 tax reduction bill had slowed down to a walk in the senate today as senators from both parties ignored the measure to debate political subjects.

The proximity of the national conventions and the decision of administration leaders to adjourn congress on May 26 took interest off the tax bill and centered it on matters that may affect the political destiny of both parties. There were indications a final vote on the bill might not be reached until next week, although administration leaders expressed the hope daily of reaching a vote before nightfall.

In three days debate this week two minor items were added to the measure and an amendment proposed to repeal the federal inheritance tax. Doomed to defeat, the mere introduction of this amendment tended to slow down action on the bill. The insurgent group, which supported the administration throughout the tax fight, were vigorously opposed to the repeal and helped delay the final vote so that in event the amendment were adopted, they would be able to filibuster the whole tax bill to death.

Opponents of the Boulder dam bill and other senators, opposing other pending legislation, joined in the dilatory tactics in order to prolong the tax debate and block action on the measures they opposed. Such tactics were expected to continue throughout the week.

There appeared no necessity for enacting the bill at the present session as all the rate changes will not take effect until next year. The reductions authorized will apply on incomes, earned during 1928, but payable after March 15, next year. Consequently, the bill can be enacted at next December's session in time to become applicable next year.

# 400 Athletes Will Compete In District Meet Here Saturday

## SALEM DEFENDS ITS TRACK TITLE. WON LAST YEAR

Greatest Athletic Carnival In History Of School Will Be Staged At Reilly Field All Day Saturday

BOTH A AND B TEAMS IN 14 EVENTS

New Records Expected To Be Made by Allen, Roessler, Rudy, Hammond and Other Stars In This Part of Ohio

More than 400 athletes, the cream of this part of Ohio, will participate Saturday in the greatest athletic carnival this city has ever staged.

Several new records are expected of the athletes competing in the district meet at Reilly field when Salem High meets with 16 other district schools, defending its championship, won last year at Massillon.

The principal drawing-cards of the meet will be Salem's crack pole vaulters, Lowell Allen and Keith Roessler; Allen Rudy, Canton McKinley runner; and Hammond, Massillon high and broad jumper. New records are expected from each of this quartet, the recognized best in the district in their events.

The fame of Allen and Roessler spreads much further than the district, and more is expected of this duo than of the others because of the reputations that they have built up at Chicago, where they finished one-two in the national indoor meet, the Ohio Relays, Carnegie Tech meet, and the Mid-West relays. In each of these meets the two either tied for first, or finished first and second.

The pole vault record of the district is only 11 feet 3 inches so both are certain to top it. Curtis of Alliance, the only outstanding member of George Wilcox's squad, who gave the Salem stars a battle at the Ohio Relays should also break it, but will probably place no better than third.

Rudy will be concentrating everything he has on breaking the 380 mark, which he put on the records himself last year. The mark stands at 2 minutes, 4.8 seconds. The Canton flash was not entered in the 440, which he was hoped to win were he to compete, as Coach Young figured it would interfere with his half mile run.

Rudy's best mark of the year has been around 2:09, but he has never been pressed.

He will also run as anchor-man on the McKinley mile relay team. This team has only a slight chance to break the district record, which stands at 3 minutes 39.3, made by East Tech in 1921, but will come close to doing it. The team ran it in 3:42.2 in the Stark county meet Saturday, better than the Columbiana county record.

Many Other Stars Entered

Hammond, Massillon's star high jumper is a sure bet to better his own mark of 5 feet 11 inches, made at last year's meet. Both he and another Massillon jumper, Jones, have been going over the 6-foot mark, but Hammond has been doing it more consistently than his sidekick and is counted on for a first and the new record.

Several other stars from different schools have entered in the meet. They are: Freddie Everett, Youngstown South, for the 100 and 220; Sauer, Akron South, 220, 440; Fazio, Salem, javelin; Litty and Seeds, hurdles; Oliver, Alliance, 100; Hedrick, Canton, weights; and Nasemann, Youngstown South, broad jump and weights.

The outcome of the meet is a toss-up. The majority of dopsters favor Canton McKinley and Salem for the big fight, but each Akron team entered and both Youngstown teams have entered a strong outfit that will be due for consideration. Competition in the whole meet will be close, with no team able to claim any big odds over the next one entered.

Youngstown Rayen withdrew from the meet in the last minute to enter Lakewood meet where competition is expected to be much easier than at the Salem meet. Coach Oliver Ellis stated Thursday that he withdrew from the local meet because the Salem field was not in the best of condition due to the construction of the stadium.

Class B schools also are entered, with many crack teams competing.

Stand Will Seat Thousand

Preliminaries in the district track meet which will be held at Reilly field tomorrow will start at 9:30. The same program of events and time order that was followed in the county meet last week will be used, preliminaries in nine events being held during the morning.

The schedule of events is recommended by the Ohio athletic association and was followed in a very satisfactory manner in the county meet.

Preliminaries will be held in the 100 yard dash, pole vault, high jump, shot put, discus, javelin, high and low hurdles, and the 220 yard dash.

Afternoon action will be started off at 1:30, with the 100 yard dash finals. The schedule for the finals is:

1:30—Shot put, pole vault, and 100 yard dash.  
1:45—500 yard dash.  
2:05—440 yard dash, running high jump.  
2:20—120 yard high hurdles.  
2:40—220 yard dash, discus throw, running broad jump.  
2:55—Half mile run.  
3:15—220 yard low hurdles and javelin throw.  
3:30—500 yard relay.

Count Prohibitive Favorite to Win Kentucky Derby Saturday

By DAVIS J. WALSH

Louisville, Ky., May 18.—Having spent the last 24 hours disguised as a wildcat in the feed box, I am forced to the conclusion today that there is only one factor operating against Reigh Count's chances of winning the Kentucky derby tomorrow afternoon.

He doesn't read the newspapers.

He, therefore, can't know that all track-wise folk are agreed that there is nothing in the field that can be figured to bet him. He can not turn to the form sheets and be apprised of the gladdening tidings that he has all of the heart and the foot of his field and simply must do an imperial ballet to the pay-off over the entire mile and a quarter of the race.

He can't even surmise that the chicken gumbo in which he has been doing his recent "works" has been nailed as a further token of impending success.

From what I have been able to gather, the great race has two distinct possibilities—if the track remains muddy, Reigh Count can't lose; if it dries out by tomorrow afternoon, the rest of the field hasn't a chance.

Prohibitive Favorite

The Count, in brief, is one of those incipient calamities known as a prohibitive favorite. He apparently is to go to the post with a vast majority of the homeless dollars in Kentucky riding on his withers, and it's just too bad that a thing like that has to be kept a secret from the only party involved who can do anything about it.

As it is, Reigh Count will line up at the barrier with some 18 odd horses, without the slightest suspicion that he is a great horse. The others are merely seeds, as we say, at the heavy stable. He conceivably might even finish last and feel no sense of social depression. He has learned by experience that the odds are just as good at the end of a losing as they are the days when he wins.

It is from ignorance such as this that the 1 to 2 shot comes cantering contentedly back to the judges' stand after finishing shortly before the start of the next race.

Therefore, and in all gravity, I declare that the crying need of the race track, excepting jockeys without forearms—is a horse that can be made to know that he is racing for the honor of dear old John Bananas and his two dollar ticket.

However, the good word here is that Reigh Count can remain dumb as an information bureau and still beat the field he is to face, for most of the derby entries either were discredited in the pre-race or were beaten off by the count in the Mammoth Cave event on Monday last.

Toro Is Given Chance

There is one notable and two minor exceptions to this statement. The former is Edward B. McLean's Toro, which would have won the pre-race if he hadn't been given a ride like a man on a rail. Toro came all the way from twelfth to second, finally running a near dead heat with Victorian, the winner.

The minor exceptions are Strolling Player, the \$61,000 importation and Sun Beau, both of which ran forwardly, particularly in the closing stages of the race. Strolling Player seems to lack track smartness which is something that can and must be used in a big derby field. Sun Beau did get up from thirteenth to fifth.

However, if we are going into details with these also rans, we might as well record the fact that Typhoon was hastening somewhat in the stretch, having advanced from fifteenth to seventh in the process.

The point is that none of those mentioned looked like a horse that could race in the same heat with the Reigh Count that did 2:05 2-5, pulled up, for the derby distance, only four days ago.

As for the others, Lawley, Dodgson, Colonel Shaw and Jack Higgins were beaten off by the favorite Monday. Petee Wrack was third at the half in the pre-race and folded up. Bobasha couldn't stay with Victorian's pace. Sortie barely improved his position which was, roughly speaking, the rear. Distraction fell back from second to ninth in the stretch run, and Don Q showed so little early speed as to indicate that he might not belong with the real good ones.

Misstep, which has yet to prove anything, might select the derby to start furnishing evidence. So might Replevin, Cartage, Martine Flynn, Bonivan, and others. But these are "if" horses.

Risiko Is Matched To Fight Godfrey

New York, May 18.—Humbert Fuzazy, Brooklyn promoter, has matched Johnny Risiko of Cleveland, for a 10-round bout with George Godfrey, leading negro heavyweight, to be held at Ebbets Field, Brooklyn on June 20.

## CUBS FIRST IN NATIONAL RACE

McCarthy's Crew Blanks Braves; Uhle Toys With Senators

New York, May 18.—The clubs supplying the fireworks in the major league races at present are the Chicago Cubs, who have won 11 straight games; the New York Yankees, who have won seven straight and taken 11 out of 12 from the western clubs; the Boston Red Sox, who have won six straight; and the Brooklyn Robins, who have won four straight.

The Cubs gained undisputed possession of first place in the National league yesterday by blanking Boston 2 to 0, while the Cincinnati Reds lost to Brooklyn, Pat Malone, speed ball merchant from the American association, limited the Braves to five hits and Hack Wilson, eluded a homer and a triple. The Reds dropped all the way to third place below the Cardinals, who did not play.

The Yankees won in the ninth, 4 to 3, when Pitcher Crowder of the Browns forced a run over the plate. Ruth, Gehrig, Blue and Brannon hit homers. Gehrig now has six homers and the Babe has twice as many.

The Yanks gave Stanley Coveleskie, veteran spitball pitcher, his last chance to make a comeback—and the Pole came through like Bobby

Jones' driver. He yielded only six hits.

Anything may happen in the American league now—the Boston Red Sox are in the first division for the first time since the adolescent days of the canine Yclept Hector. The embattled Back Bay boys handed a 5 to 3 beating to George Moriarty's sweet-singing and sour-playing Tigers, who have lost seven in a row and are in last place.

The Chicago White Sox climbed out of the cellar by nosing out the Athletics, 6 to 5. Alphonse Thomas won his own game by hitting a double. Hauser got his eighth homer.

George Uhle was the whole works in Cleveland's 8 to 3 win over the Senators. He toyed with the Washington batters and drove in four runs with a homer and a single.

Brooklyn's 4 to 2 victory over Cincinnati put the Robins within hailing distance of the first division. Stat's single in the seventh settled the argument.

The Cardinals, Giants, Pirates and Phillies did not play.

**"CHANG"**

"Natural drama" will be introduced in an advanced state at the State tonight when "Chang," the Siamese jungle picture produced by Ernest B. Schoedsack and Merian C. Cooper is released locally by Paramount.

The chief fear of these men is that before release many will look upon their production as a travel picture. They insist that it is straight drama, with suspense, comedy, continuity and tempo. It has a story, too.

"Natural drama," Mr. Cooper explains, "is drama produced with natural actors in their own environment, living the story of their lives and their struggle for existence. This new jungle picture is the story of a people surrounded by an abundance of food. There is so much food that a superabundance of creatures live on it and on each other. There is the constant menace that this teeming vegetable and animal life will overwhelm the humans struggling against it. On this we built our story."

"We chose an attractive family living in the edge of the jungle for our central characters. Their staple food is rice, they build their bamboo houses on poles to protect themselves from jungle animals, they keep domestic animals and chickens. They are constantly faced with the problem of protecting themselves against the depredations of beasts—tigers, leopards, bears, snakes, elephants. The elephants become their best friends and sources of wealth when trained, but in wild herds they are to be feared."

"In photographing the lives of these people we always kept the dramatic values in mind. The story develops, shows the wavering between hope and fear and the final triumph over a herd of more than 400 wild elephants."

"We wanted it to stand by itself as a piece of dramatic entertainment. The fact that, in addition to this, it has scenes of great scenic beauty, shows the people untouched by civilization and that there are thrills and laughs in it, leads me to hope that we have accomplished something new in the field of picture production."

**"ARIZONA WILDCAT"**

Tom Mix and Tony, his famous horse, take a wild auto ride in "The Arizona Wildcat," Fox Films latest release which will show at the Grand tonight.

Mix has the role of Tom Phelan, former army captain and he is all ready to ride in a polo game at Santa Barbara.

The crook who is captain of the opposing team has his gang get Tom into putting Tony into a trailer behind a racing auto, pretending they will be hauled to the polo field. Instead they race away to the mountains to keep Tom out of the game. When he discovers the trick, he knocks out the crooks, turns about and starts for the field. Mix gives Tony a fast ride until the trailer is wrecked. Both escape injury and then Tony carries Tom onto the field just in time for him to turn the tide and win from the crooks.

Dorothy Sebastian and a cast of screen favorites support Mix in this picture.

**Secrets of the Emergency Shelf**

The gospel of the emergency shelf has been preached to suburbanites until its truths have been accepted and applied with varying results. Constant renewal is the correct idea.

The best quality of canned goods of known brands in mixed dozens is always a good buy. A variety of sauces, pickles, jams and jellies, syrups, vinegars and such things depend on family tastes for them. Bacon by the piece to slice at home comes a little less in price, but with a sharp knife is not difficult to slice. A whole ham is a good buy, for half can be boiled, some sliced for frying or broiling, some boiled with cabbage, then it may be used in hash, omelets or sandwiches. It is cheaper to buy in this day than by the half or sliced. Buying sugar in quantity is also an advantage. The package goods should be bought with discretion.

For small families half-sized cans, small jars of jellies, jams and preserves, are most economical. This rule applies all down the line of bottled stuffs. A so-called store sauce, catsup or other condiment, loses its kick if a big bottle is opened and stands about days, even weeks, before it is eaten up.

Packaged crackers are best for small families, larger ones may buy by the seven-pound boxes with glass fronts that are returnable to the shops when emptied and a rebate given on the box. For the ordinary family the butter question is settled by the amount used. Every housewife knows how much her family uses a week and that amount with a little over should be purchased. It may be in bulk to stow away in a china or glass butter pot in the refrigerator, or it may be in pound containers—a matter of choice, but always should be the best quality.

It is frequently the only nourishing grease the family uses and the best is none too good. Vegetable fats or oil may be used for frying, or bacon fat, or chicken fat melted and firm by the addition of a small quantity of beef suet, but butter must be the seasoning agent. It is more economical to buy olive oil by the can, quart or two quarts more for larger families, the best French oil for salads, a good Italian oil for frying. The American oils are good and many use them, but they are not the equal of the fine French oils, for flavor or dietetic use.

### SKYSCRAPER UNIVERSITY OPENS JUNE 1

Chicago, May 18.—Chicago's "skyscraper university" is nearing completion. Classes will convene in it for the first time June 1. The building, erected by De Paul University, is 16 stories high. Six additional floors later may be added, according to the president, the Very Rev. Thomas F. Levan, C. M. The structure, costing \$3,000,000, was financed through the efforts of the De Paul Educational Aid Society. Trustees of this corporation include: George E. Brennan, political leader; D. F. Kelly, State street department store head; Francis X. Busch, former corporation counsel and dean emeritus of De Paul's College of Law; F. J. Lewis, manufacturer and Dean William F. Clarke, of the university's law school. Attorney Busch also is a trustee of the university proper. He boasts that he is the only non-Catholic holding such an office in a Catholic educational institution in the United States.

**High Speed Elevators**  
De Paul's professional departments, including the Colleges of Law and Commerce and pre-legal school, will occupy the upper four floors. High-speed express elevators will carry the students to their classes. Stores and shops will occupy the ground level and the remainder of the space will be leased out for office purposes. On the roof will be club rooms for both the men and the co-eds. A moot court is provided for the legal students.

**Is Co-Educational**  
De Paul, Father Levan declares, prides itself on the fact that it was the first Catholic institution of higher learning in the country to become co-educational. It has been admitting women to all departments, in both its downtown and north side schools, for the last 19 years. Although operated under Catholic auspices, the Vincentian Fathers being in charge, almost 40 per cent of its enrollment is non-Catholic. Many of its professors, like students, also are of other faiths.

**GOODRICH SILVERTOWNS**

THE PLATE GLASS TEST. By pressing this glass against the Goodrich Silvertown, we show how its tread looks when pressing against the road. Read the facts below, and see what this test means in mileage.

# This one minute test

Shows how you can get months of extra service from your next tires!

Balloon tires are soft. They yield. Their tread flattens against the road. The center compresses, letting the shoulders of the tread come down to the ground.

Simple facts—but what a tremendous effect they can have on mileage!

Suppose the center had bulky masses of rubber where it should be flexible. Then pressure would crowd the tread out of shape—

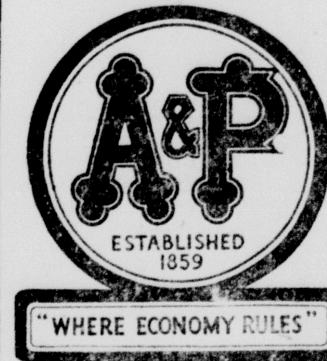

distorting the shoulder rubber — and uneven, choppy wear would shorten the life of the tire.

But Goodrich Silvertowns are molded to the shape of the famous hinge-center tread design.

To be sure of extra months of service from your tires—and cheerful service from your dealer—see us when you need new tires.

LETONIA

On Wednesday evening, May 23, the Letonia Choral union will present a secular concert in St. Paul's Lutheran chapel at 8:15. At the present time the Choral union consists of 40 voices. Directed by James S. Hall with Mrs. E. P. Stonebraker as accompanist. At this concert choral numbers to be presented will include the "Bridal Chorus" from the Rose Maiden, Strauss' "Blue Danube Waltz," Donizetti's "Italia, Italia, Beloved" and "Goin' Home," a choral arrangement from Dvorak's "New World" symphony.

In addition to the chorus numbers there will be solos by the local singers, a group of songs by George Imbie, a baritone of Wellsville. Miss Marian Wiedmayer will give a dramatic reading and Erwood Slater will assist with flute obligatos.

The residents on Walnut are making extensive improvements to their homes. The street was recently improved by paving with concrete and this spring drives are being made of concrete through the lots along the street to join the street paving.

Along the sides of the street between the curb and sidewalk the property owners have graded and sown grass seed.

Mrs. Charles C. Smith was a Lisbon business caller on Wednesday. Mr. and Mrs. E. E. Morgan who were in St. Petersburg, Fla., for the last eight months have returned to Ohio. They will remain in Salem at the home of their daughter, Mrs. H. L. McCarthy, until the first of June when they will occupy their home here on East Columbia st. now being occupied by Superintendent of Schools and Mrs. E. P. Stonebraker.

The W. C. T. U. was entertained by Mrs. Robert Clifford on Wednesday evening at her home on Somer st. The program was of interest at the close of which the hostess served dainty refreshments. Miss Clara Seiter of Petersburg was a Letonia visitor on Wednesday forenoon.

Mrs. H. C. Brillhart visited in Columbiana Tuesday at the home of

her aunt, the Misses Lydia and Mary Weaver.

Mr. and Mrs. O. E. Smith are improving their home at 425 Columbia st. by building a large porch at the east side of the home.

The Goodman home at 393 Columbia st., occupied by L. E. Fisher and family, is being improved.

COULD NOT DO HER WORK

Strengthened by Lydia E. Pinkham's Vegetable Compound

Berlin, N. H.—"I took Lydia E. Pinkham's Vegetable Compound when I was in a family way because I was run down and falling away every day. My food wouldn't digest and I could not do my work. I had to have a hired girl all the time. I took several medicines before I tried yours but none would help me. A friend told me about the Vegetable Compound and told me to try it as it would help me a lot. Your medicines have done me a lot of good and I cannot praise them enough. ## Miss Schlotter Given Third In Essay Contest

Mabel Schlotter was given third prize in the essay contest on "Credit" conducted at the Salem Business college by Miss Martha Wire, manager of the Salem Credit bureau. Her essay follows:

Credit was originated by the Romans many centuries ago. It is a remarkable thing that though it had practically disappeared until a few centuries ago it differs in no essentials from our present day employment of credit.

Credit may be defined as the confidence or faith that is placed in the ability and purpose of an individual to meet his future obligations. If the credit of an individual is good, it is because there is general confidence in his ability and willingness to pay. A man must be of good character and be known to be regular in paying his debts to establish credit.

After credit is once established great care must be exercised to maintain it. One must pay his debts when they are due or explain and give an apology for his not being able to do so. Many times things will happen between the time credit is granted and the time it is due to prevent payment, but if he offers an apology and asks for an extension of time, it will in most cases be given and credit still maintained. The willingness to pay goes a long way toward maintaining credit. It is the honesty and sincerity behind an apology that makes for good faith and good faith makes much for credit.

The necessity for maintaining a high credit, which every nation must regard as one of its principal obligations, has the effect of imbuing the people with a deep sense of the responsibility imposed upon them, both individually and collectively. A people that has the proper respect for its own position among the family of nations will endeavor in every possible way to assist the ruling powers in so disposing the capacities and wealth of the nation as to make them count to the greatest advantage in establishing and maintaining the nation's credit. A splendid example of this phase of national life has been shown in the attitude of the Japanese people who have not only established, but succeeded in maintaining, under conditions which most authorities were at first inclined to regard as discouraging, a public credit which is one of the marvels of present day history.

Credit has done a thousand times more to enrich the nations than all the mines of the world. Its principal function is to draw wealth into

the channels of trade and productivity. It takes the place of corresponding amounts of gold and silver and a saving is effected which permits the employment of these precious metals for other purposes. Only under the present system of exchange, both domestic and foreign, which includes: Bills of exchange, accommodation bills, promissory notes, bank notes and checks, can the transactions involving millions upon millions of dollars be adjusted with absolute safety. Without it business transactions would be very limited. It is only by the system of credits that the great operations of modern business can be conducted. Credit creates expansion and activity. It makes one dollar do the work of many dollars.

About 90 per cent of the business of today is done on credit. All the wholesale business in modern trade is done on credit. The merchant

who restricts his purchases to the amount his cash capital can pay for in full, must do a comparatively small business. Therefore the man who can by the credit system, multiply the usefulness of a dollar is indeed a public benefactor.

MABEL SCHLOTTER.

Money unused is of no benefit. It is only when put in use that it becomes of value and it is never more useful than when made the basis for credit.

Just as credit has its advantages just so it has its disadvantages. But these would be almost eliminated if man would pay his honest debts. When you refuse to pay your

debts you are taking from the person you owe money that belongs to him. So only by paying ones debts can the great work of credit continue and the problems which face the credit man be banished.
